Additions:

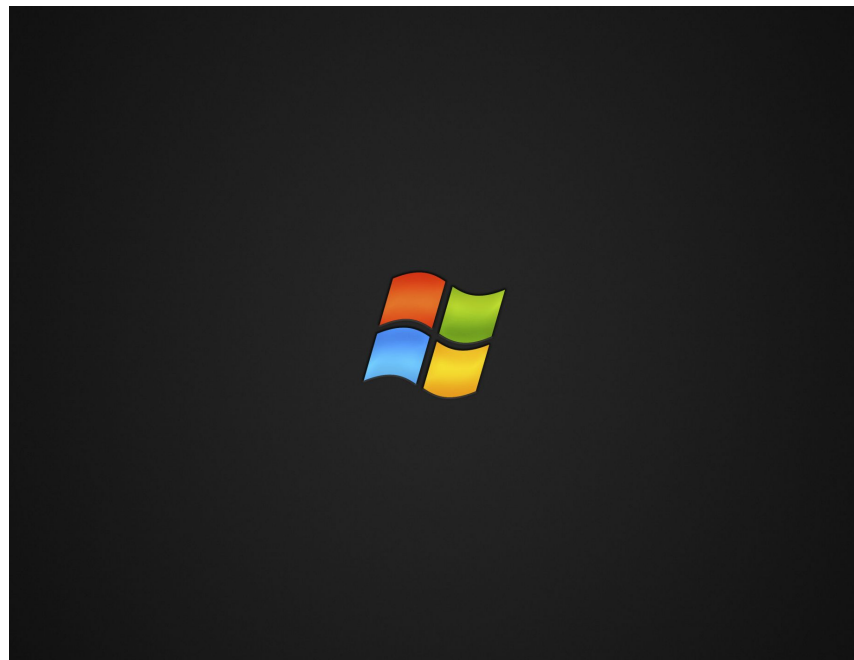

Color coordination (colors represent what you click).

Added post it notes (which use the Comic Sans typeface).

Version: 2.0

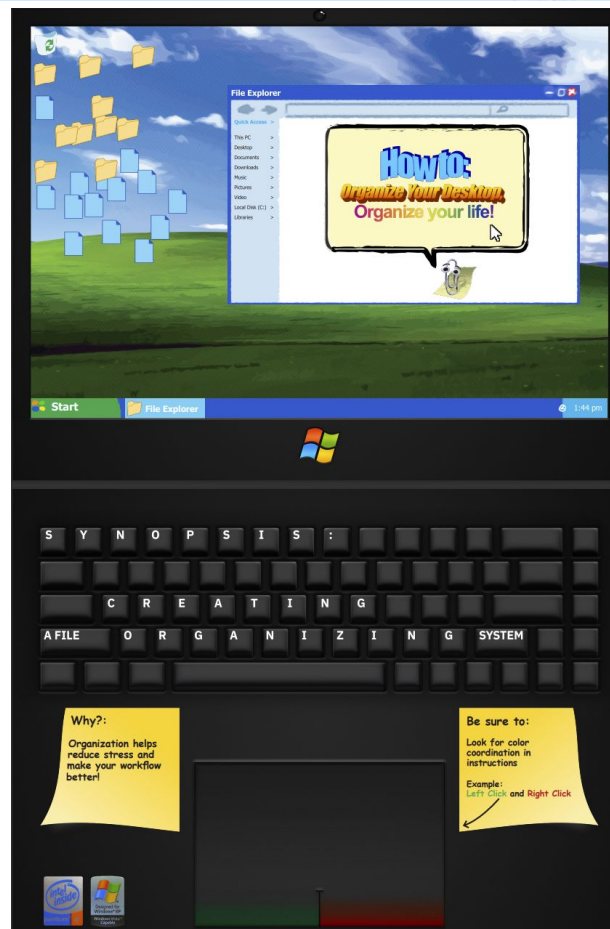

Changes:

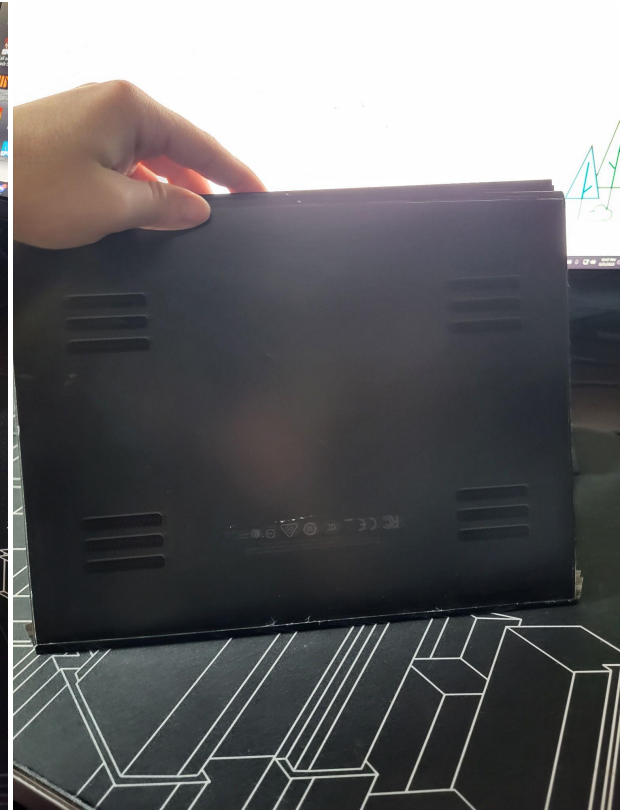

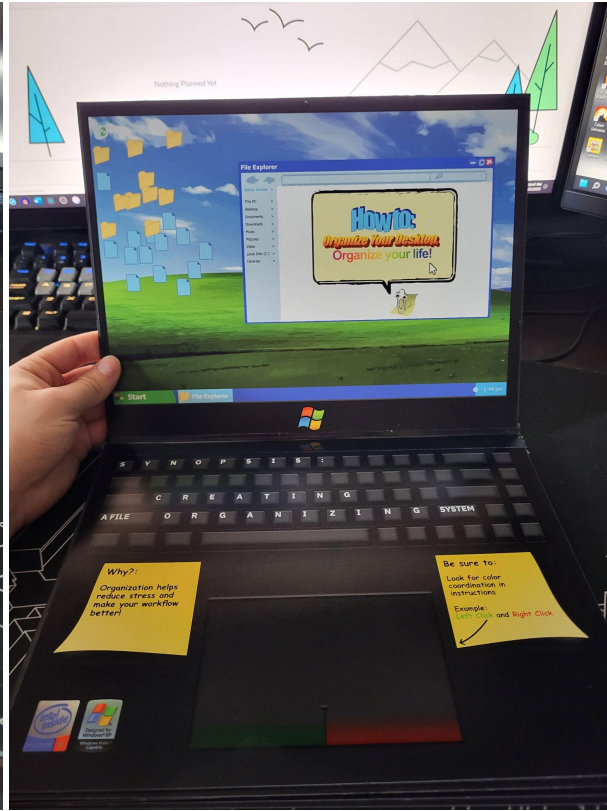

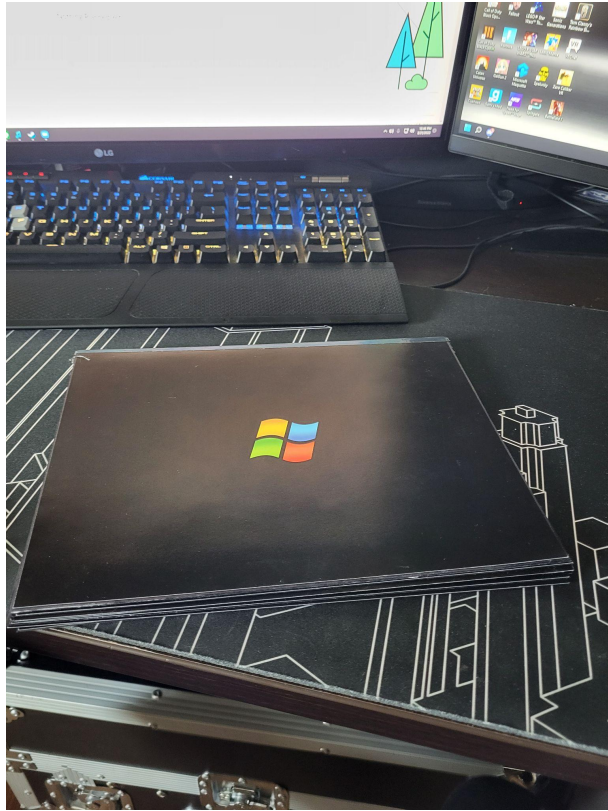

Scale changed.

Additions:

Back Cover.

New post it notes.

Version: 3.0

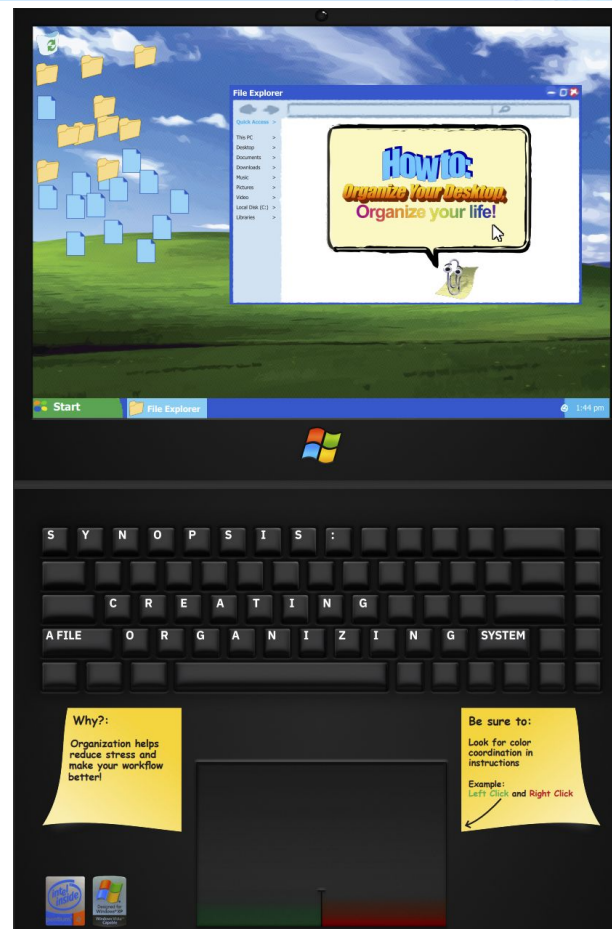

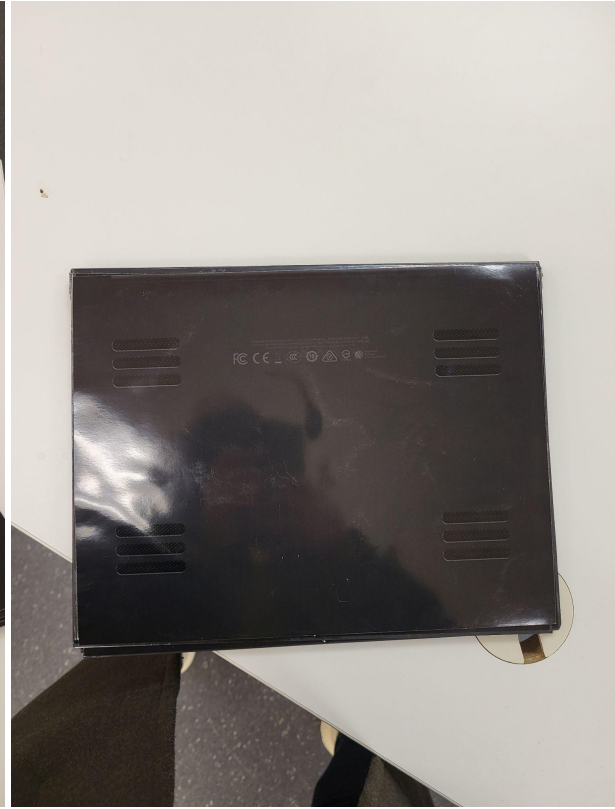

Changes:

None

Additions:

Back Cover.

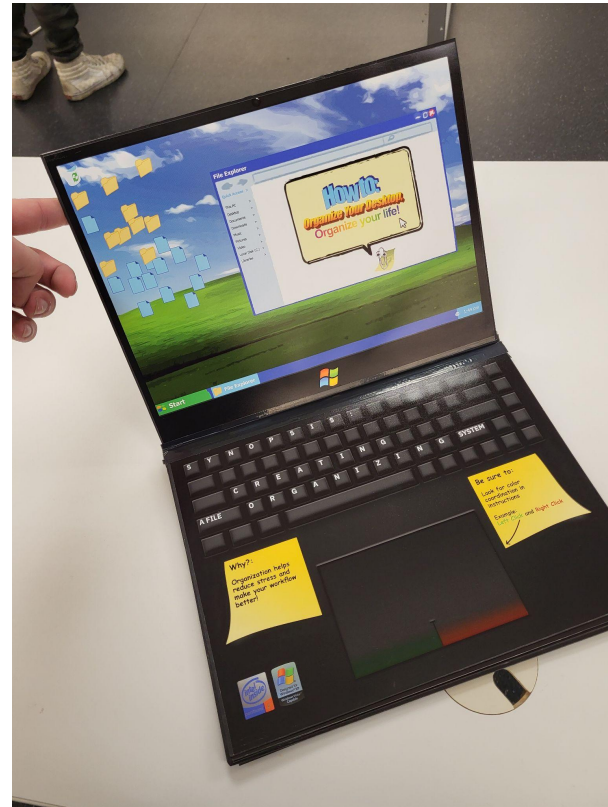

Binding Process:

I glued each page onto black cardstock.

I put all the pages in between two heavy books, glued the edges of the pages, and then taped them to get the bind.

I also taped the inside to add more stability to the binding.

Reflection

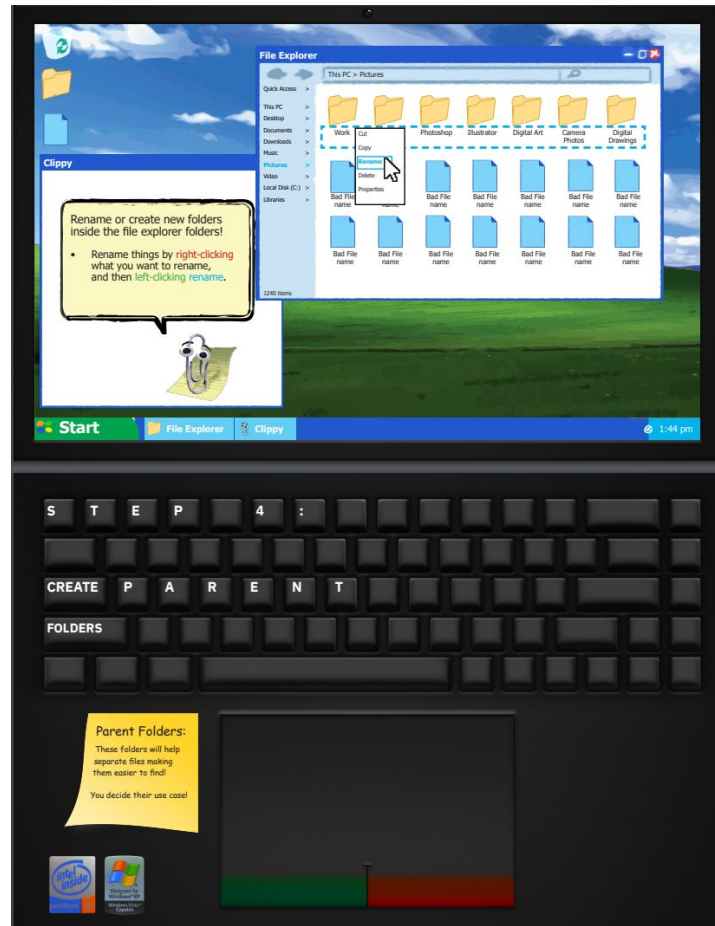

What I Learned

This being my first craft project, I learned the process of binding a book and the amount of work that goes preparing a booklet.

I also learned to print more than you need that way you won't have to worry about buying more reprints.

Problems

Some problems I faced were usually with the digital print center. Some pages wouldn't print and one of the days I planned on picking up my print they were closed (Even though their site said otherwise).
